

Practicum Project Organizations, Locations, and Titles 2024

Degree: MPH-45

Field of Study: Epidemiology

Project Title
The Association Between Social Media Use and Psychological Well-being Among Cancer Survivors; Data from Health Information National Trends Survey
Financial Toxicity and Its Impact on Mental Health Outcomes in Cancer Survivors During the COVID-19 Pandemic
Heterogeneity of Parkinson's Disease from an epidemiological perspective: prediagnostic metabolomic signature of hyposmia
The Associations of Mitragynine, Opioids, Other Substances and Socio-demographic Variables to Drug Intoxication-Related Mortality (DIRM)
EXPLORING RISK FACTORS FOR CORONARY ARTERY DISEASE THROUGH AN EXPOSOMIC APPROACH: A TWO-SAMPLE MENDELIAN RANDOMIZATION STUDY
The association between hypertension and hearing impairment
Racial/Ethnic Differences in Outcomes in Patients with Predominantly Antibody Deficiency (PAD): the 2017 National Inpatient Sample (NIS) database.
The impact of age on health-related quality of life (HRQoL) in patients with advanced prostate cancer
Negative subjective-objective sleep discrepancy is correlated with incident hypertension but not increased risk of cardiovascular events or mortality in the Sleep Heart Health Study
Outcomes of a Stroke Clinical Pathway for Children on Ventricular Assist Devices

Impact of the COVID-19 Pandemic on Child Maltreatment Analyzed through Emergency Department Visits in a Large Suburban California Children's Hospital
The association between pediatric brain arteriovenous malformation hemorrhage with inpatient stroke and death: a hospital volume-outcome analysis of U.S. national database admission records
Clinical Significance of Supraventricular Tachycardia during Pregnancy in Healthy Women
Development and validation of a clinical risk prediction rule to identify inflammatory arthritis at the point of rheumatology triage using routinely collected data
Pre- and post-transplant diabetes mellitus and the risk of infection and mortality after heart transplantation in the United States
Diabetes is Associated with Worse Outcomes of Patients Admitted for Ischemic Stroke: Analysis of National Inpatient Sample
Glucose-lowering medication use trends in patients with Down syndrome and type 2 diabetes
The contribution of vertebral fracture to degenerative changes of the spine
Urban-Rural Differences on all-cause mortality and cancer-specific mortality in Cervical Cancer Patients with Advanced Disease at Diagnosis between 2008-2018
Polycystic Ovary Syndrome and Endometriosis Diagnosis Disparities by Sexual Orientation and Gender Identity: Moderation by Race/Ethnicity and Health Insurance Status
Disentangling Plasmodium falciparum genetic relatedness networks to study malaria transmission across Senegal
Understanding Tuberculosis Prevalence and Risk Factors in Remote Australian Aboriginal Communities: A Cross-Sectional Study in Pukatja, APY Lands
Understanding the likelihood of missed appointments for veterans scheduled in asynchronous tele-ophthalmology programs
